Professional summary

Dedicated and motivated final-year Information and Communication Technology (ICT) student at Durban University of Technology with a practical experience in software development, web development, and problem solving. Proficient in Python, Java, SQL, React, Firebase, JavaScript, and Flask, with hands-on experience building web applications and software solutions. Seeking a graduate, internships or entry-level opportunity in software engineering to apply and expand my technical skills while contributing to the real-world application.

Technical Skills

- Programming Languages: Python, Java, JavaScript, C#
- Framework: React, Flask
- Web Development: HTML, CSS
- Database Technologies: Firebase, SQL
- Version Control: Git, GitHub
- Tools: Visual Studio Code

Soft Skills

- Problem-solving
- Team-collaboration
- Analytical thinking
- Critical thinking
- Communication
- Time Management

Education

Bachelor of Information Communication and Technology (ICT)

Durban University of Technology

2024 – Current

National Senior Certificate (Matric)

Inkosi Umphathesitha Junior Secondary School

Completed: 2023

Projects

WIL internship & Placement Management System (2026)

Problem: Students couldn't track applications, coordinators faced and lost documents, and administrators lacked tools to manage placements or generate reports.

Solutions: Developed a full-stack web application (Flask, SQLite, Bootstrap) with role-based access for students, coordinators, and administrators. Key features include digital document upload, real-time application tracking, automated notifications, placement search, and reporting dashboards.
